Company Overview

In today's unstable economic environment, companies are under enormous pressure to control their IT expenditure and improve margins. For more than 15 years Network Elabs has provided businesses across India with IT Infrastructure solutions at an affordable price, making sure they don't exceed their budget.

Established in 2008, we offer best in class IT hardware solutions ranging from new and pre-owned servers, Switches, Routors, Firewalls, wireless, VoIP Devices and Other networking devices and their spares from all major OEMs including HP, Dell, IBM, Sun Microsystems, Cisco, NetApp, EMC Huawei, Arista and a few others. All our products are fully warranted & we even provide annual maintenance contracts (AMCs) for our hardware and software clients across the globe. We are dedicated in providing our customers with service excellence in their time of need.

"We manage all problems of our customers and provide a solution and assist them in their IT related issues in software & hardware support. Our aim is to provide the right solution at the right time and with the right price without compromising on quality and service.

In simple words, we believe that - "Quality is remembered long after the price is forgotten."

Our Mission

To optimize value, performance and life span of IT infrastructure by providing reliable solutions and services excellence at all time to our customer.

Our Vision

To exist as the IT infrastructure solution provider of choice for our esteem customers by collaboratively providing quality and fit-best solutions and levitate their business to a new horizon.
